

COMPONENTS OF THE LARYNX

Skeleton

Muscle

Ligaments/membranes

+

Fibroelastic Membranes

Mucosa

Nerves, vessels and lymph vessels

MAJOR CARTILAGES

Thyroid cartilage

Cricoid cartilage

Epiglottis

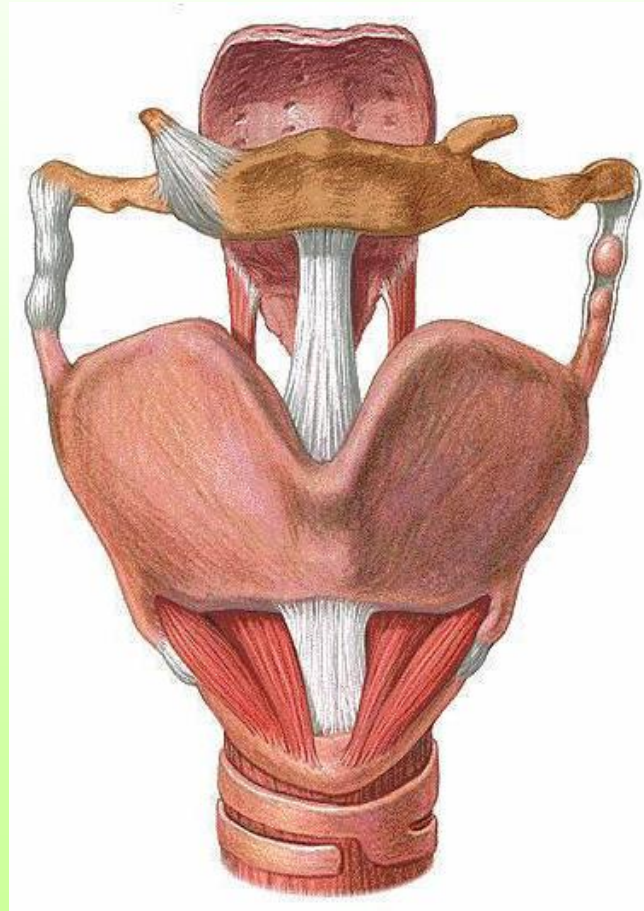

Arytenoid cartilage

MINOR CARTILAGES

Corniculate cartilage (Santorini)

Cuneiform cartilage (Wrisberg)

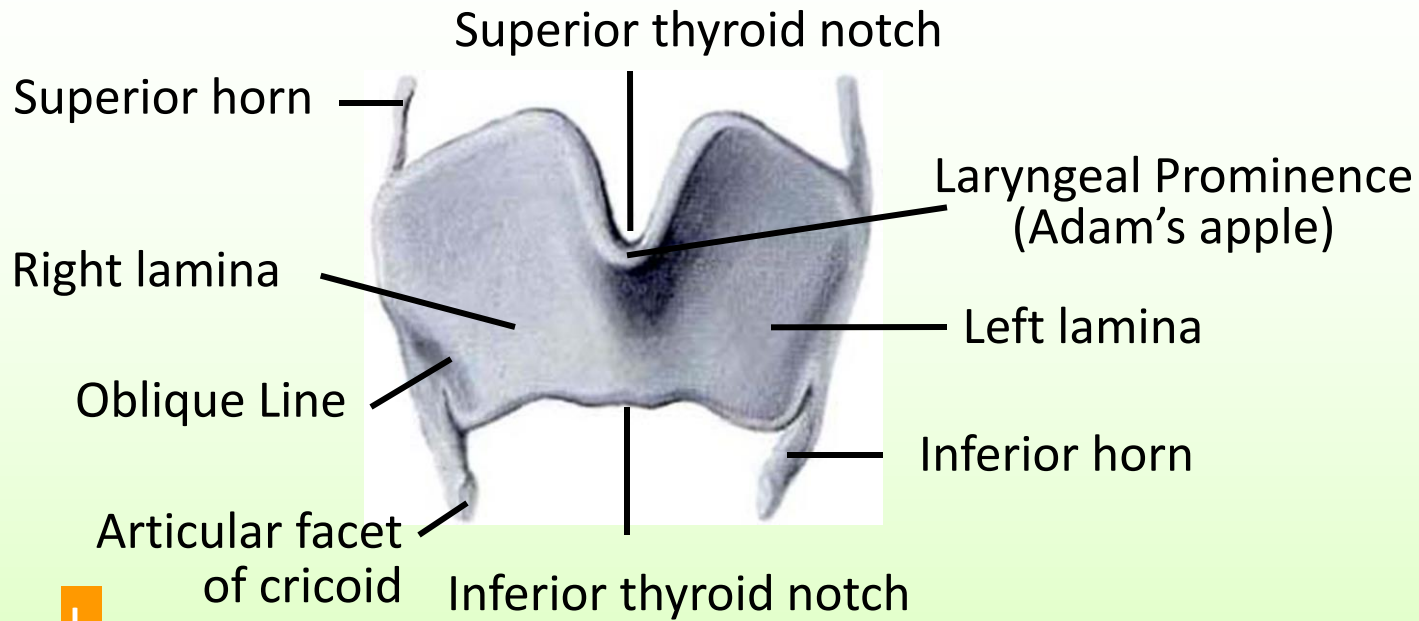

Tricteal cartilage

VENTROLATERAL ASPECT

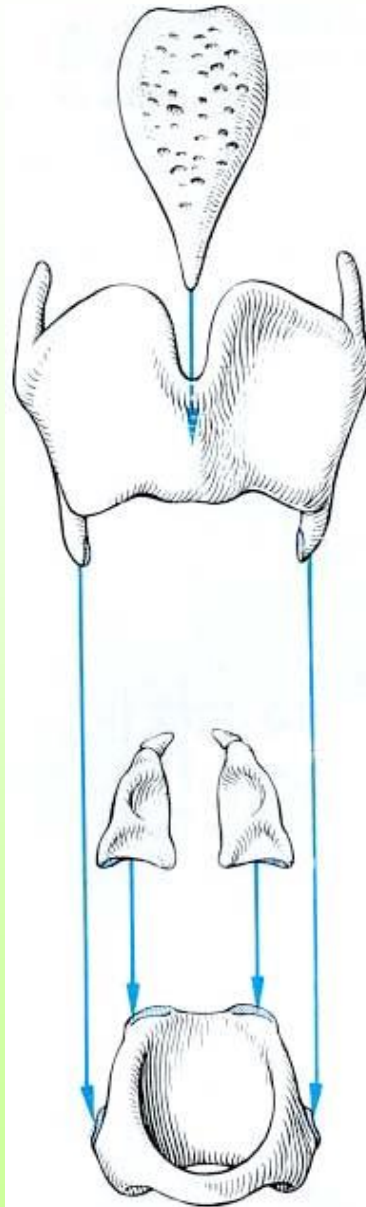

CARTILAGINEOUS FRAMEWORK

Carina epiglottidis

Petiolus epiglottidis

Epiglottis

Petiolus epiglottidis

thyroid

articular facet
of cricoid

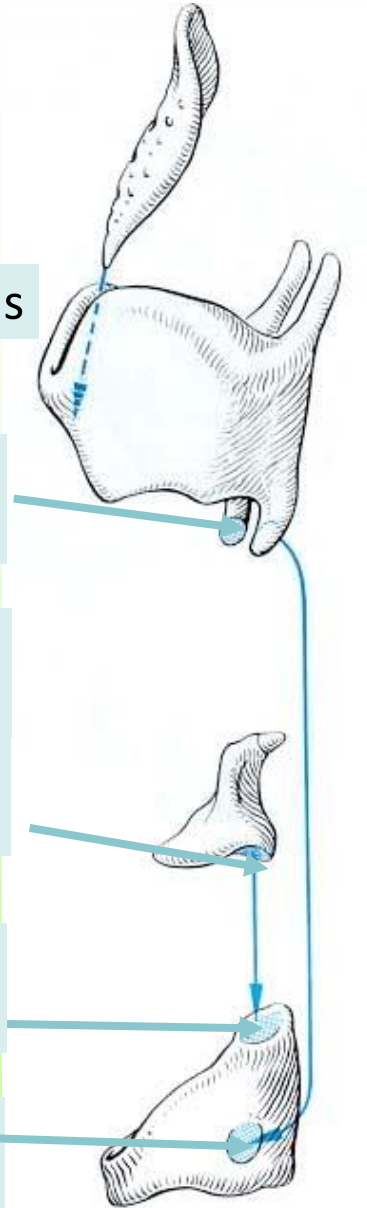

Basis
or
articular facet
for arytenoid

arytenoid

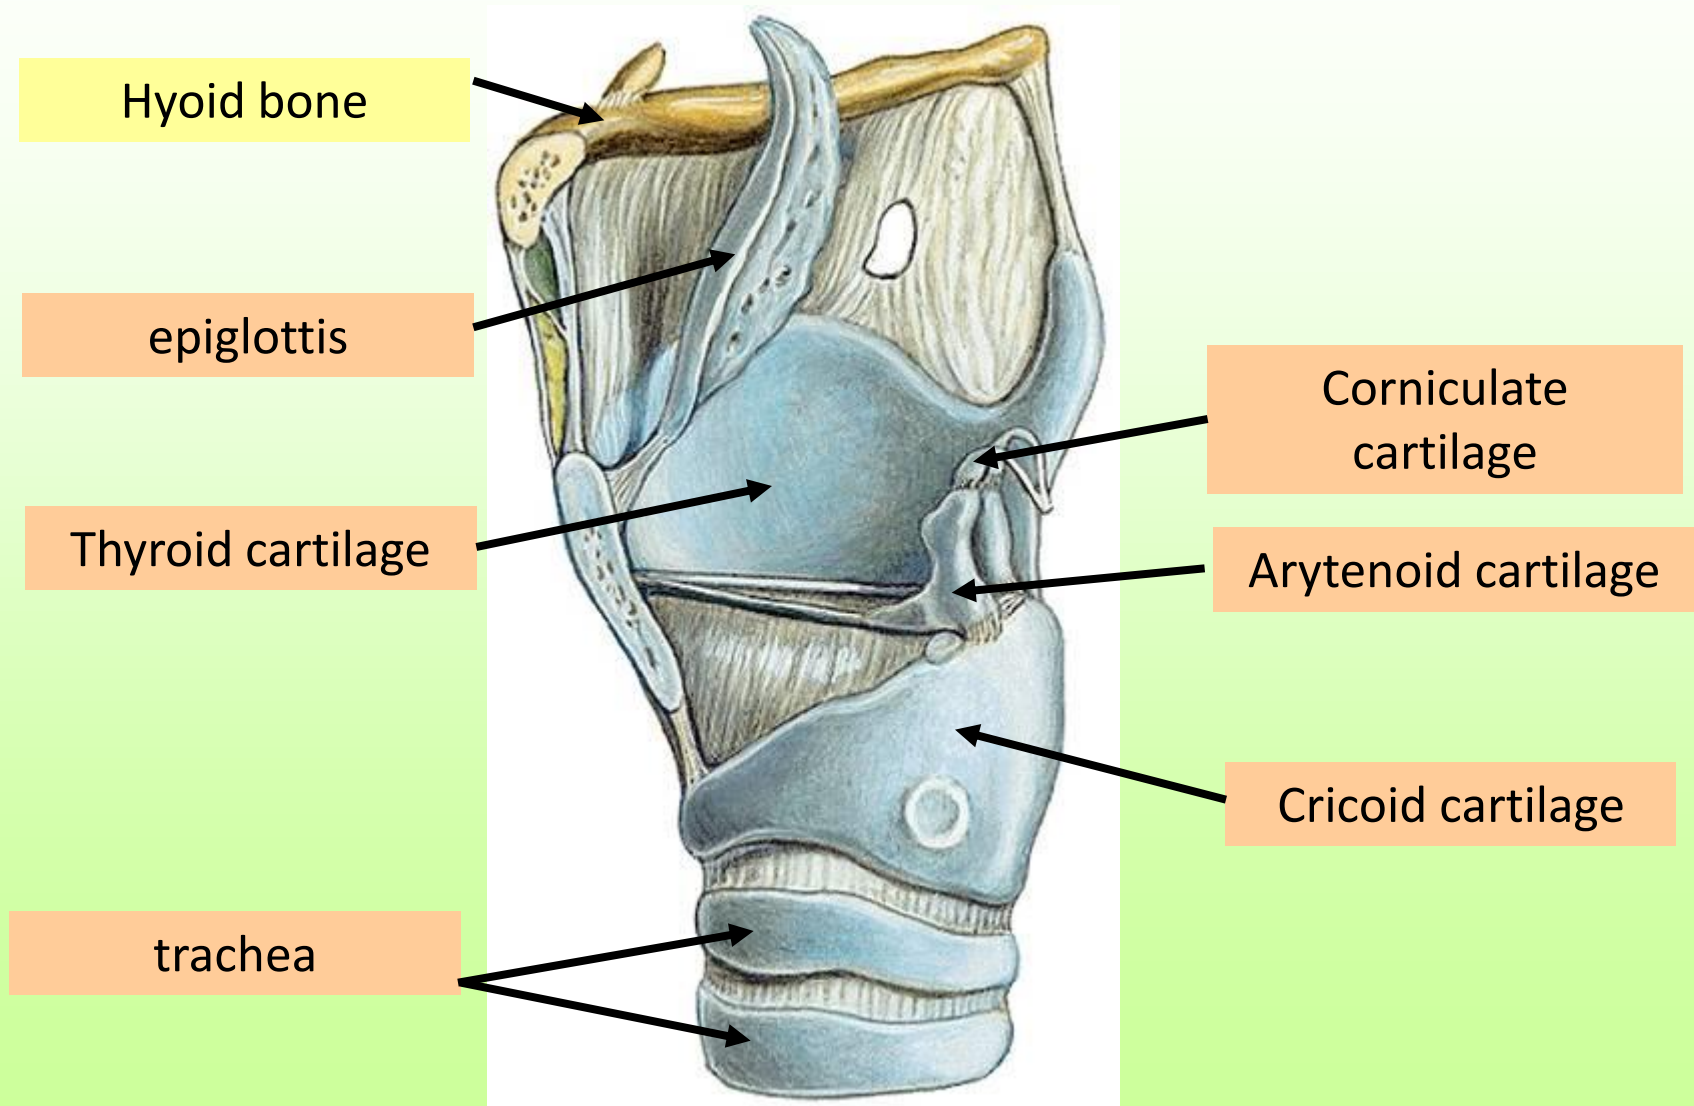

articular facet
of arytenoid

cricoid

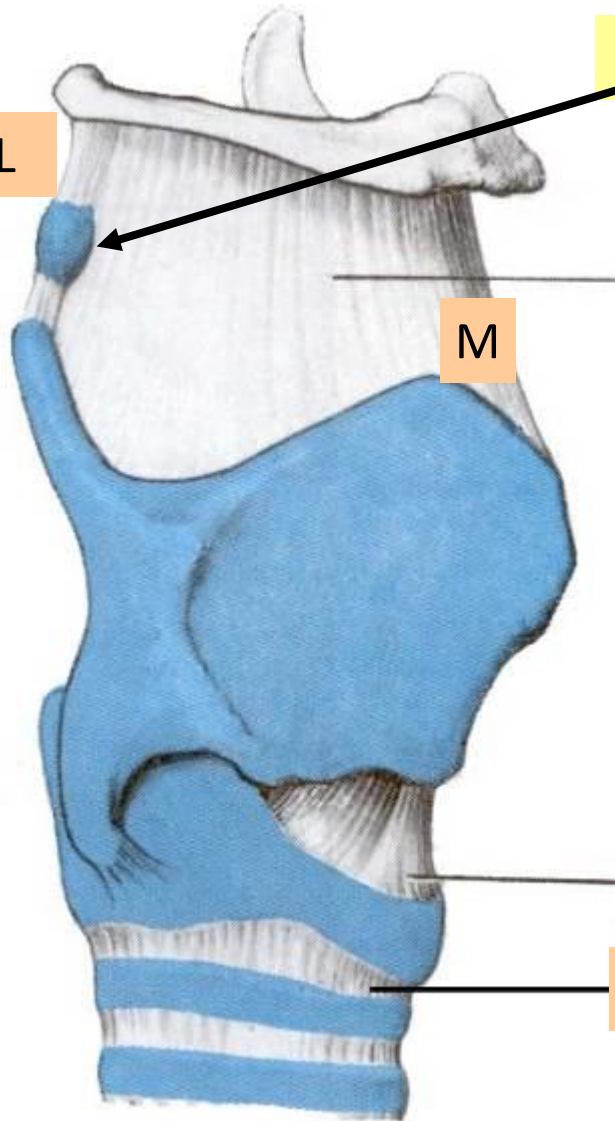

articular facet
for thyroid

CARTILAGES ARE CONNECTED BY MEMBRANES AND LIGAMENTS

MEMBRANES AND LIGAMENTS

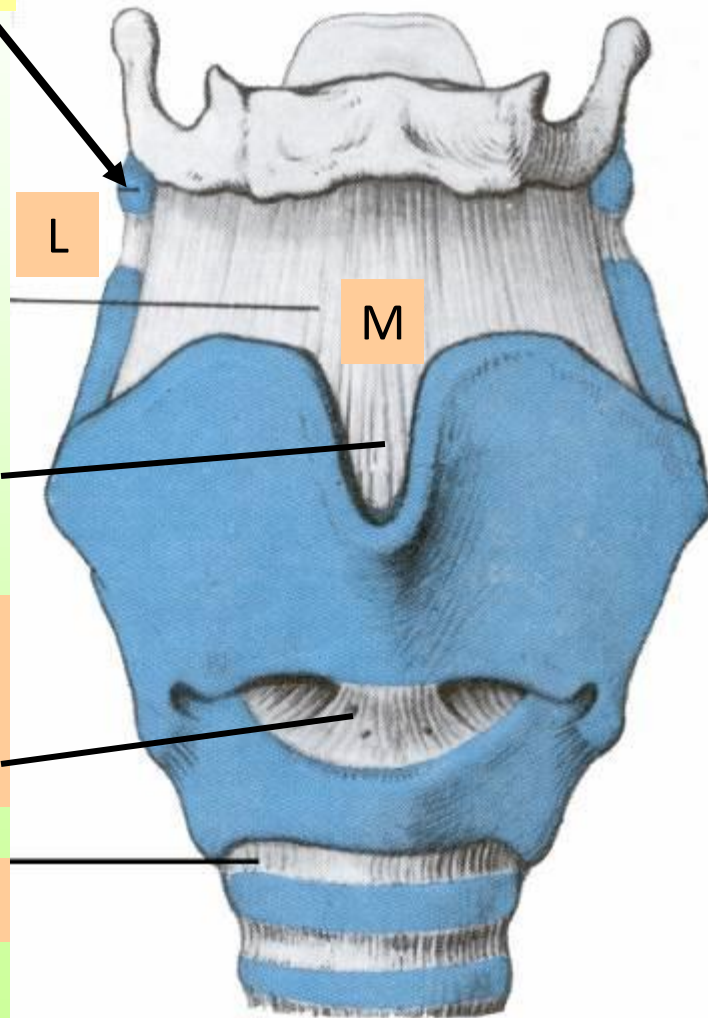

Triticeal Cartilages

Thyrohyoid membrane
+ median and lateral
Thyrohyoid Ligaments

Cricothyroid Lig.
(*Conic Lig*)
Coni(c)otomy

Cricotracheal Lig.

EXTERNAL AND INTERNAL LIGAMENTS

*Thyrohyoid membrane
+
median and lateral
thyrohyoid ligaments*

Thyroepiglottic Lig.

*Medial
cricothyroid Lig.
(Lig. conicum)*

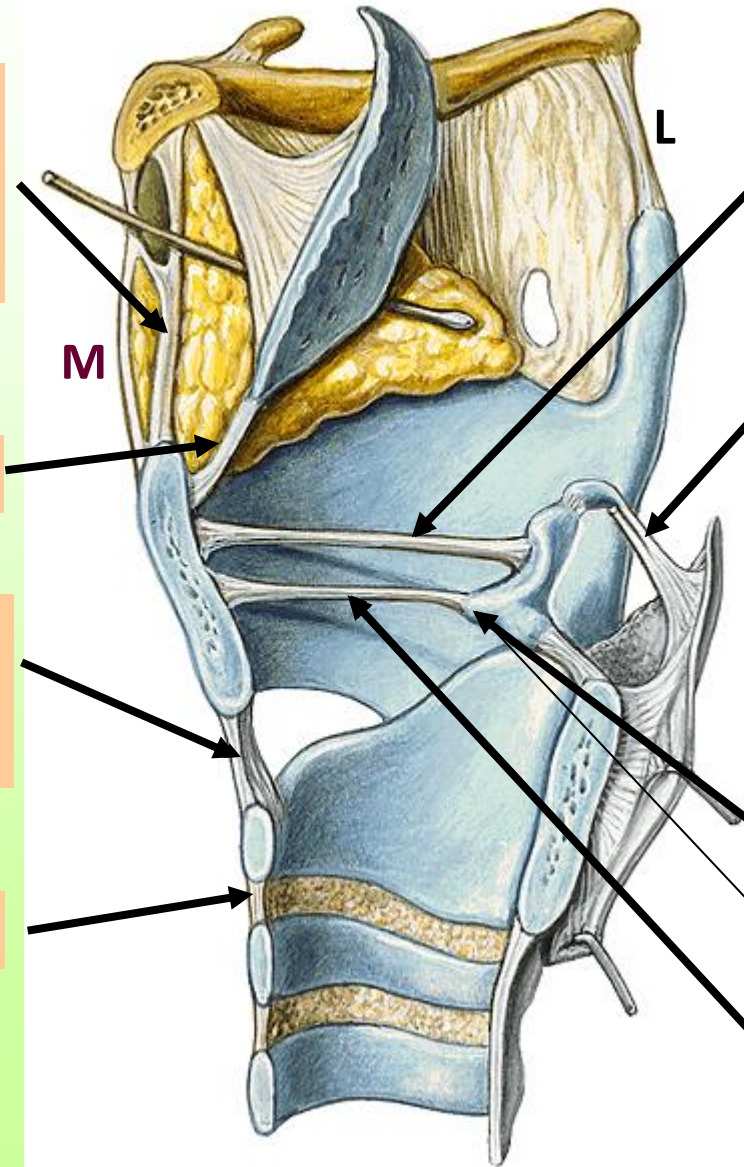

Cricotracheal Lig.

Vestibular Ligament

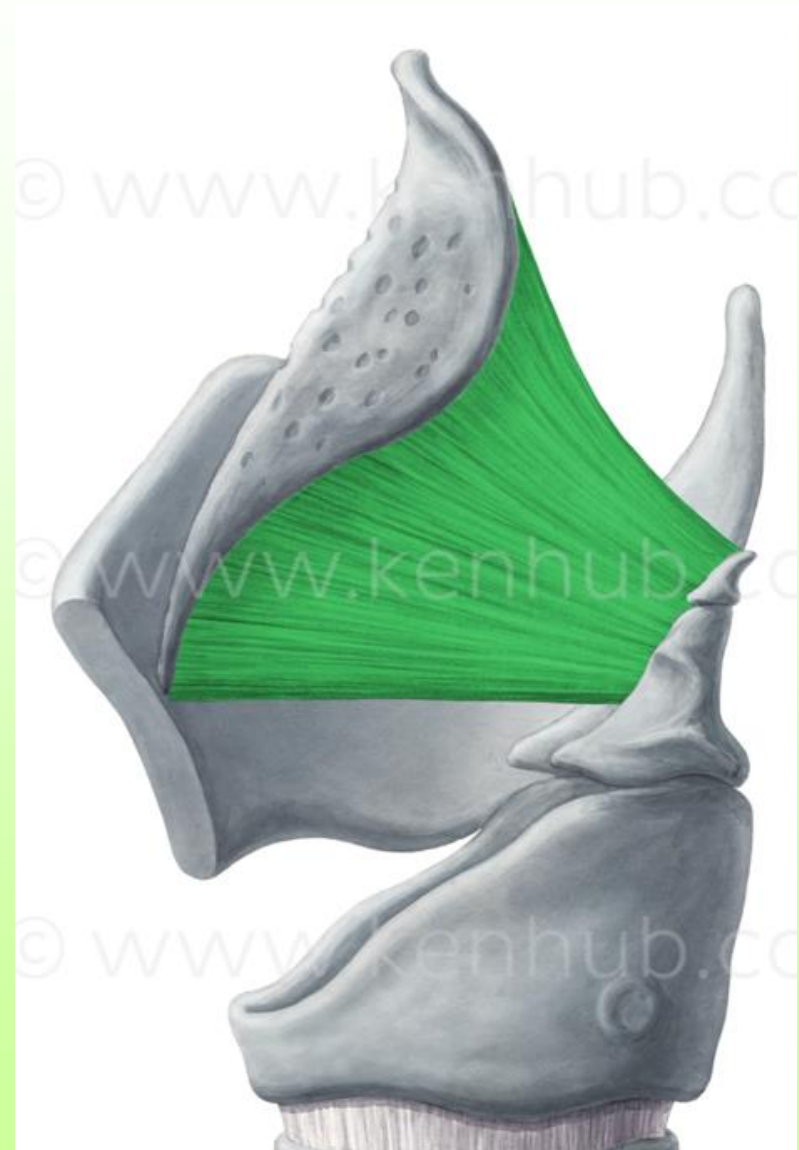

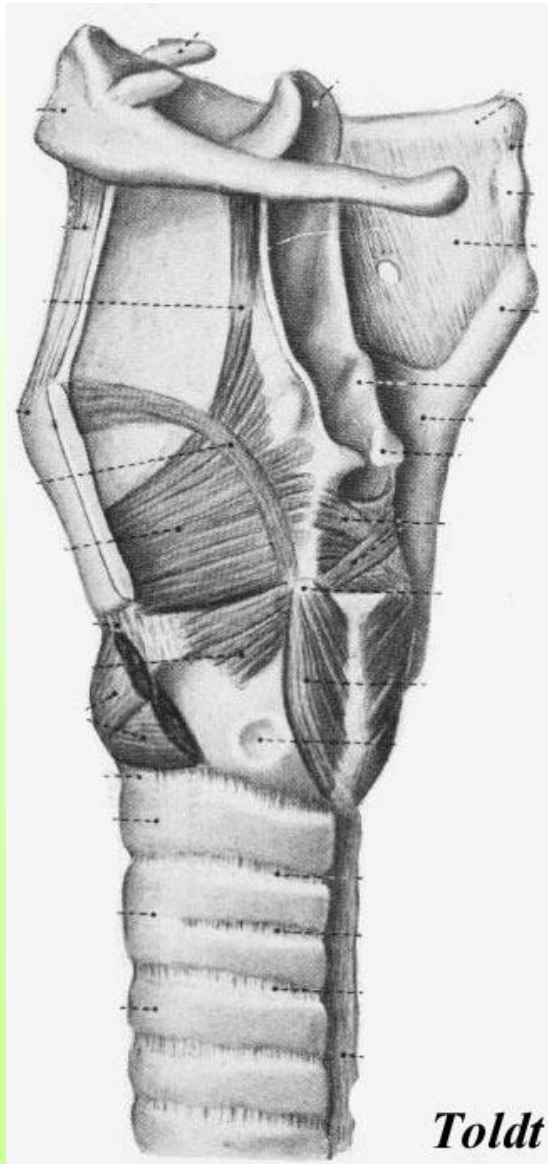

Corniculopharyngeal lig.

Vocal Process

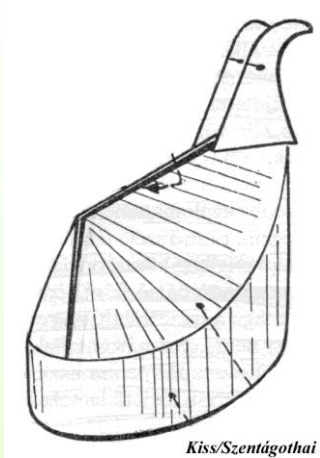

Vocal Ligament

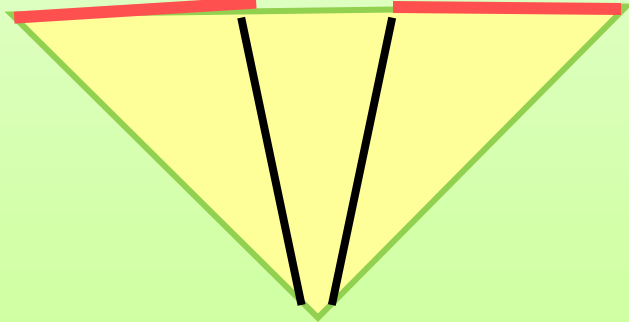

QUADRANGULAR MEMBRANE

CONUS ELASTICUS

Vocal Ligament

Triangular Membrane

FIBROELASTIC MEMBRANES OF THE LARYNX

Epiglottis

quadrangular
membrane

Vestibular fold

Vocal fold

triangular
membrane

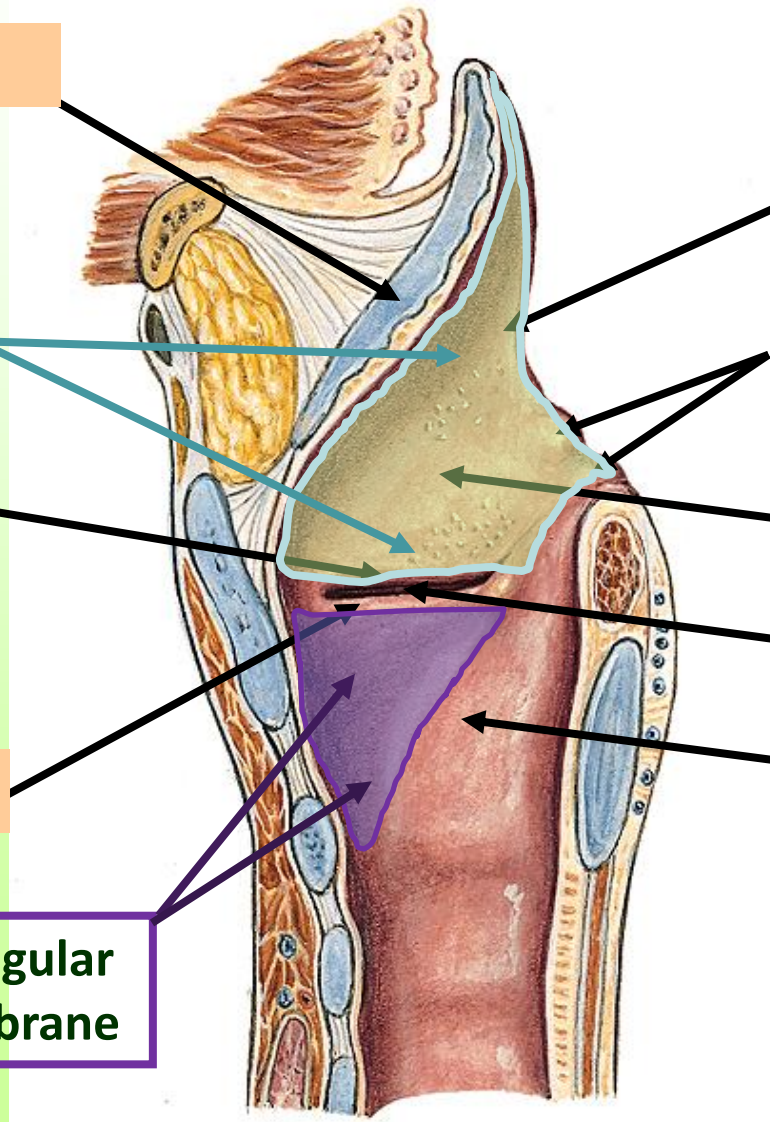

Aryepiglottic fold

Corniculate and
cuneiform tubercles

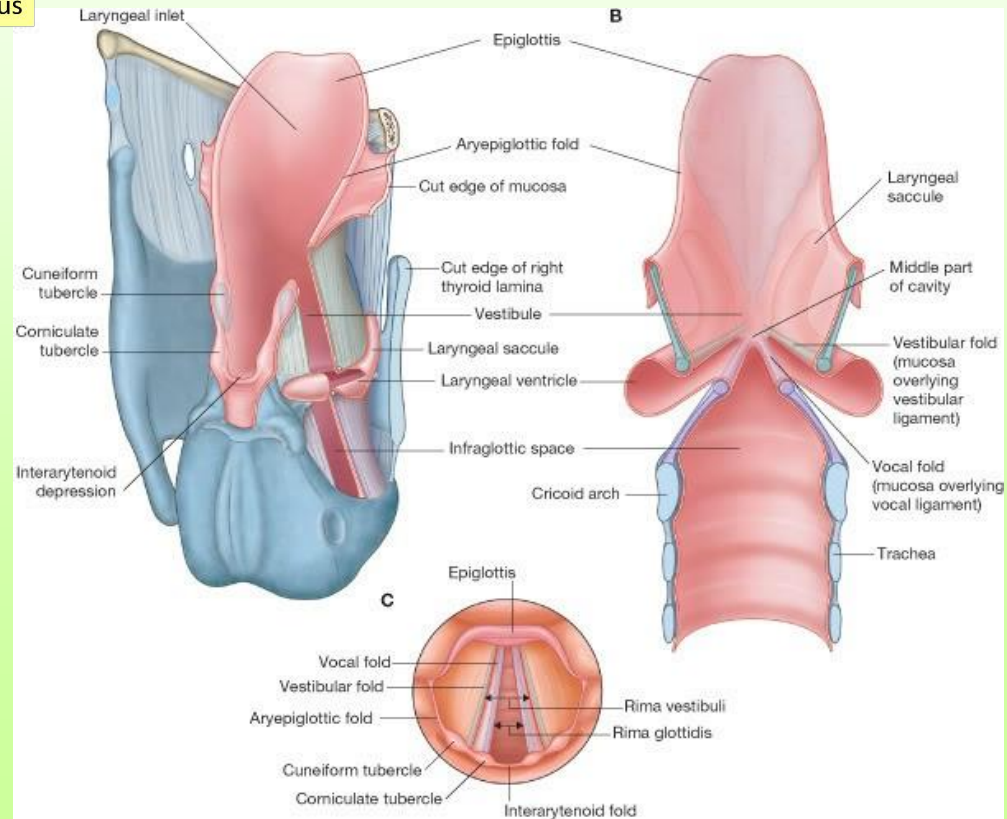

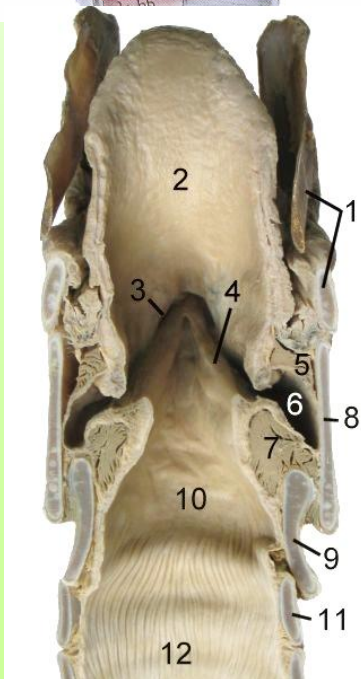

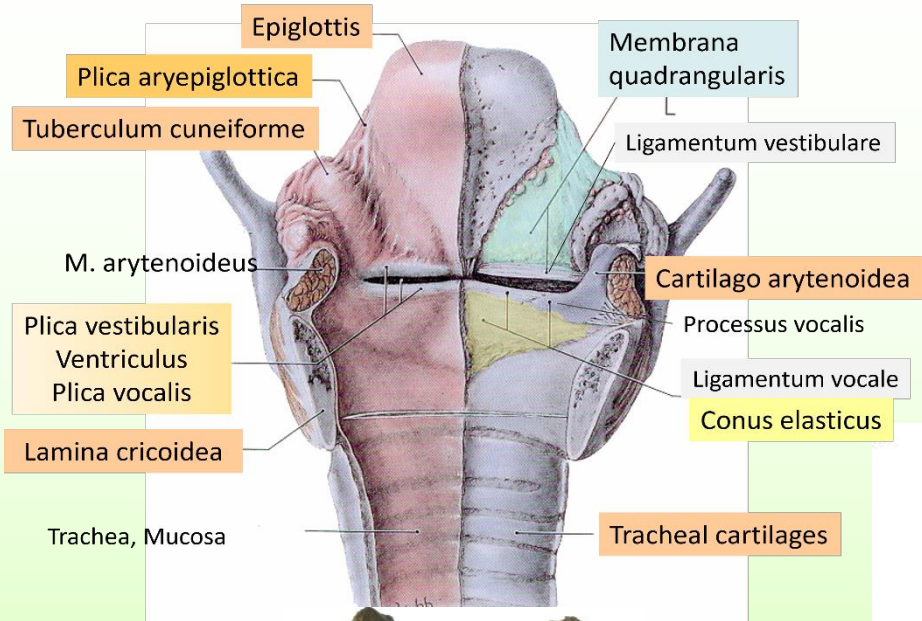

Vestibule

Ventricle

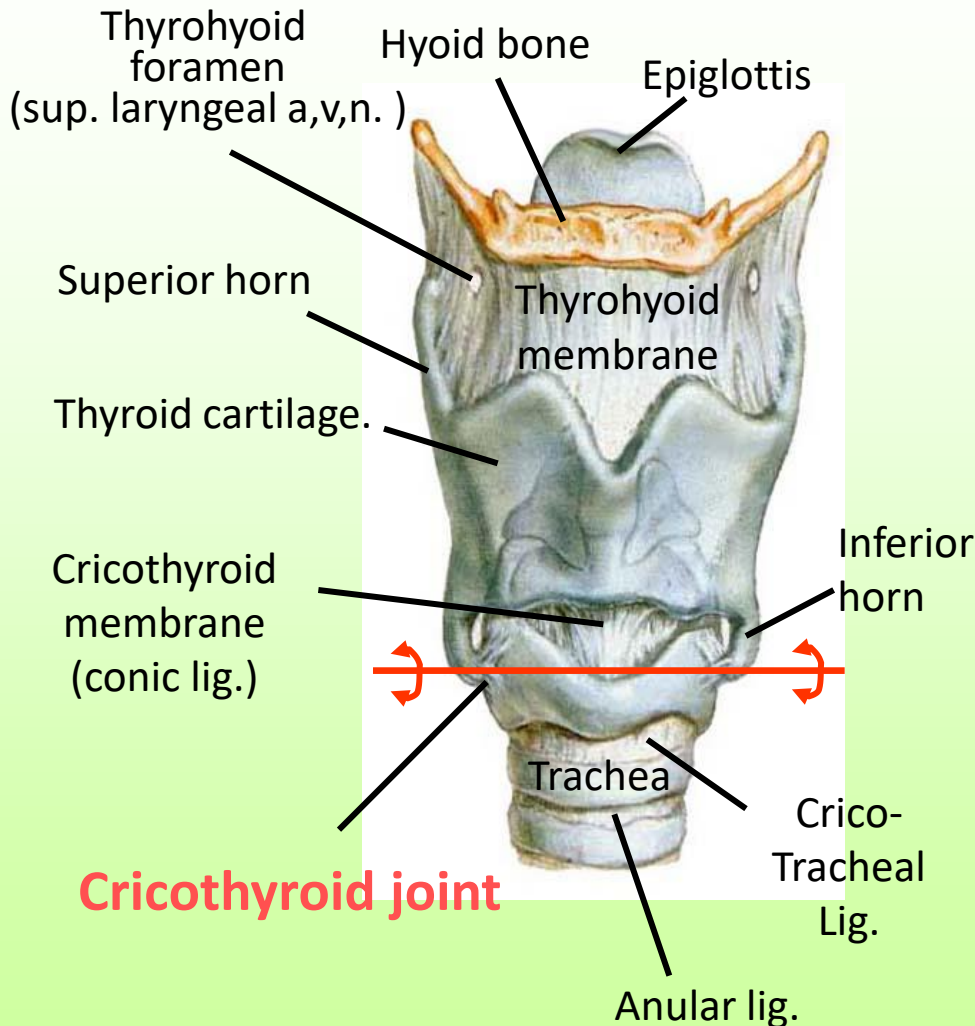

Subglottic Space

MUCOUS MEMBRANE

JOINTS OF THE LARYNX

CRICOTHYROID JOINT

HEAD: inferior horn of the thyroid
(articular facet)

SOCKET: thyroid surface of the cricoid
(between arch and lamina)

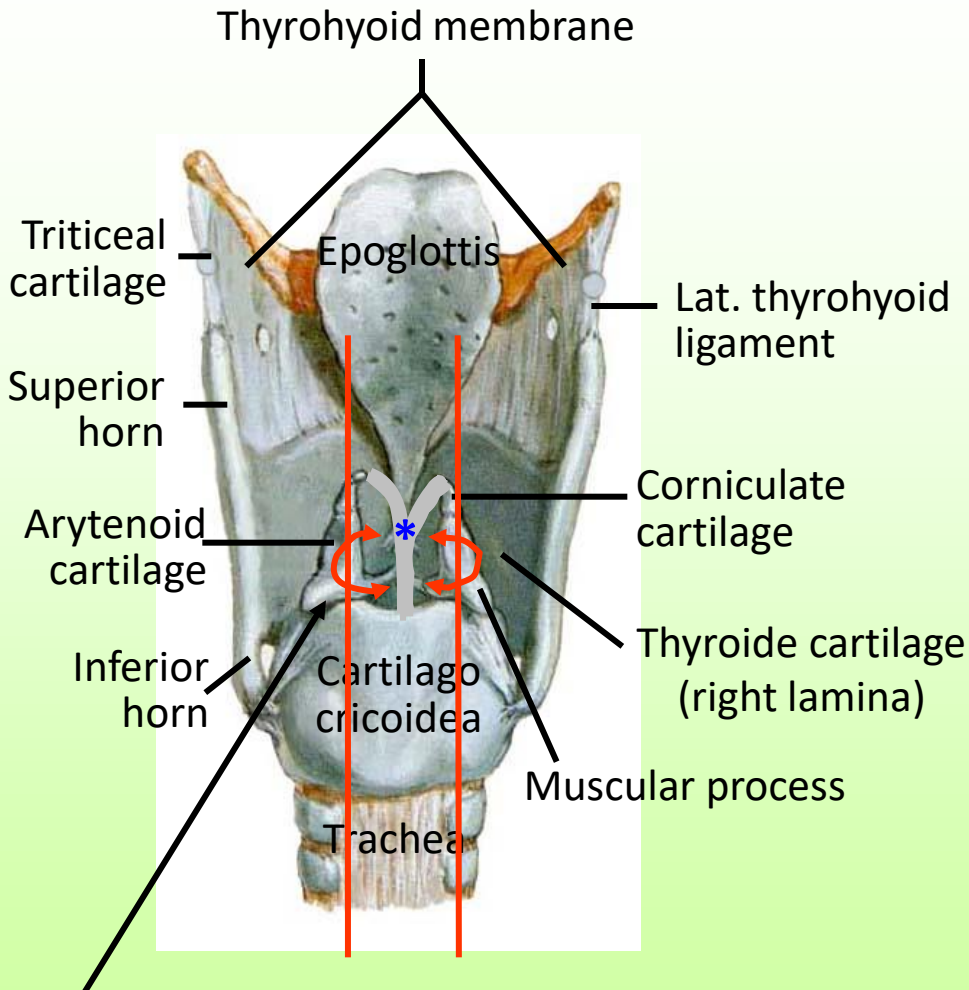

CAPSULE: tight

LIGAMENTS: ant, post, lat,
(enforce the capsule)

TYPE: hinge

*Tilts the thyroid around the
transverse axis
(stretches the vocal cord
Pitch of voice changes)*

JOINTS OF THE LARYNX

CRICOARYTENOID JOINT

HEAD: arytenoid articular facet of the cricoid

SOCKET: cricoid articular facet of the arytenoid

CAPSULE: +

LIGAMENTS: ant, post

TYPE: trochoid

Rotation and gliding

Cricoarytenoid joint

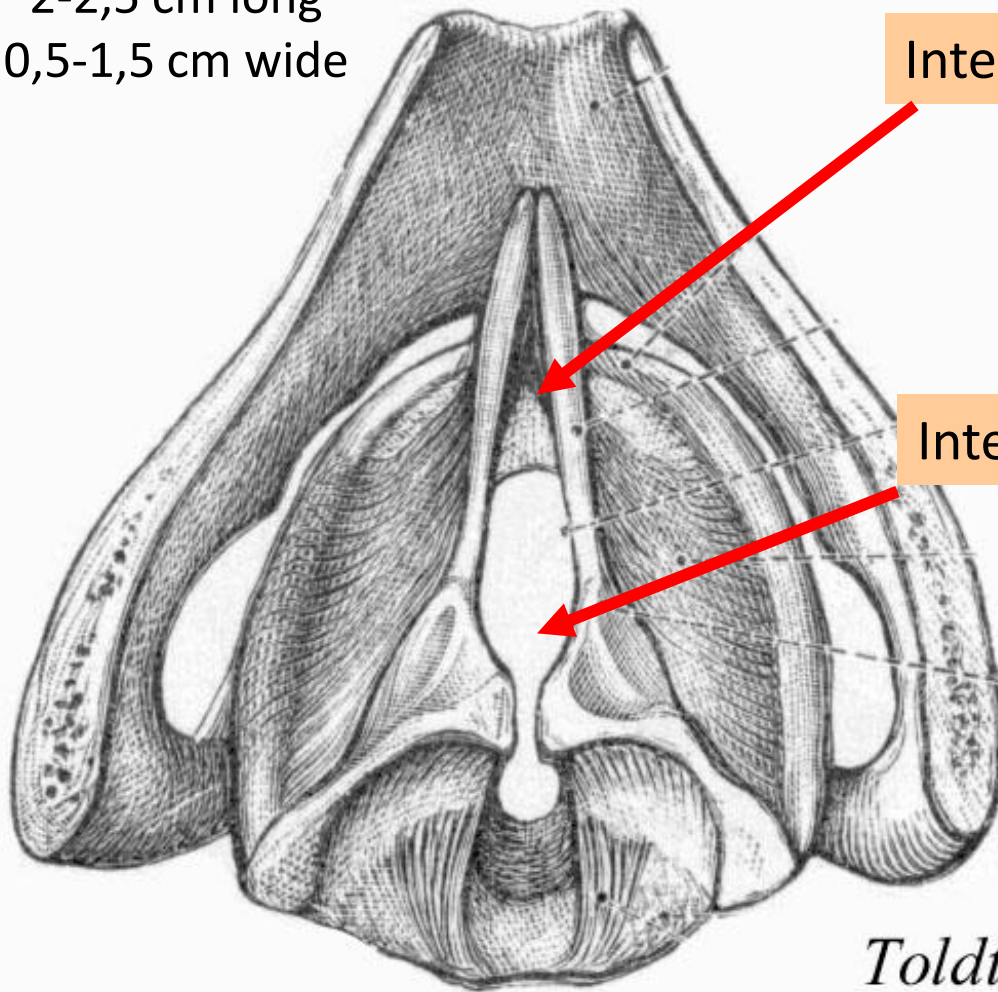

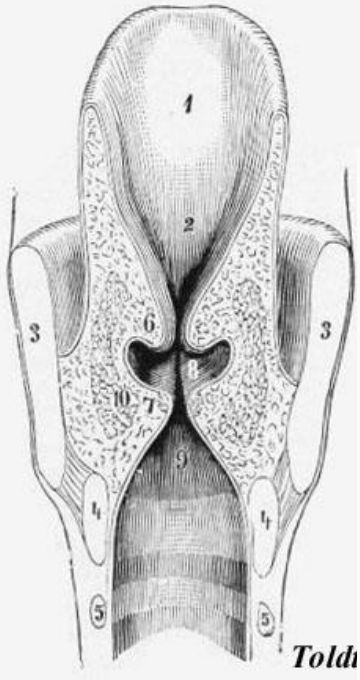

*corniculopharyngeal lig.

GLOTTIS

PARTS AN BORDERS OF THE RIMA GLOTTIDIS

Rima glottidis

2-2,5 cm long
0,5-1,5 cm wide

Intermembranous Part

Intercartilaginous Part
